PROFILE

I am a self-motivated, high spirited, result-oriented individual with very high ethical and moral values, integrity and well-developed capacity for hard work, a constant willingness to acquire more knowledge, I am open to learning new frameworks and languages.

CAREER OBJECTIVES

I am looking to continue my development as a Software Developer. I have over a year experience training and learning to become a developer, I have gathered a good level of knowledge of HTML5, CSS3, WordPress, JavaScript(Reactjs and Nodejs), SQL(PostgreSQL), and NoSQL(MongoDB). I am open to learning more frameworks and languages that will enable me to solve problems and ultimately add value to your organization.
